(Broadway at West 116th Street)

Thursday, February 25, 1982 • 7:30–10:00 p.m.

THE ENERGY CRISIS: Hoax or Reality?

A panel of distinguished scientists and engineers will discuss issues and answer questions about the developing energy picture.

Welcoming Remarks

Dr. Fritz Stern

Provost of the University,
Columbia University

Professor Miro M. Todorovich

Executive Director
Scientists and Engineers for Secure Energy, Inc. (SE₂)

Featured Speaker

Dr. Arno A. Penzias

Nobel Laureate in Physics
“What To Do Until The Fusion Fire Brigade Arrives”

Speakers and Panelists

Mr. René Malès

Director, Energy Analysis and Environment Division,
Electric Power Research Institute, Palo Alto, Ca.
“The Role of Fossil Fuels”

Dr. Herbert Goldstein

Professor of Nuclear Science and Engineering,
Columbia University
“A Fresh Look at Nuclear Power”

Dr. Henry Ehrenreich

Professor of Applied Physics,
Harvard University
“Solar Photovoltaics: Promises and Problems”

Dr. Harvey Brooks

Benjamin Peirce Professor of Technology and Public Policy,
Harvard University
“Comparative Risks and Benefits of Alternate Power Sources”

**Question and
Answer Period
Moderator**

Dr. Robert A. Gross

Dean, School of Engineering and Applied Science,
Columbia University

Sponsored by the Columbia University School of Engineering and Applied Science, in cooperation with Scientists and Engineers for Secure Energy, Inc. (SE₂), a national, educational, membership organization of professional and research scientists and engineers.

ADMISSION FREE — PUBLIC INVITED
