

Michael K. Tippett

Department of Applied Physics and Applied Mathematics, Columbia University
200 S.W. Mudd Building, 500 West 120th St. MC 4701
New York, NY 10027
Phone: (845) 680-4420, (212) 851-5936 Fax: (845) 680-4865
Email: mkt14@columbia.edu

Education

Ph.D. Mathematics, New York University, New York, 1992.

“Tokamak transport based in the 13-moment model”, Advisor: Harold Weitzner.

M.S. Mathematics, New York University, New York, 1990.

B.S. Mathematics, North Carolina State University, Raleigh, 1987.

B.S. Electrical Engineering, North Carolina State University, Raleigh, 1987.

Professional experience

Department of Applied Physics and Applied Mathematics, Columbia University.

Lecturer in the Discipline of Applied Mathematics, July 2013 - present.

Chief Data Scientist, Initiative on Extreme Weather and Climate, Feb 2015 - present.

Center of Excellence for Climate Change Research, King Abdulaziz University, Jeddah, Saudi Arabia.

Adjunct Professor, Dec 2011 - present.

International Research Institute for Climate and Society, Columbia University.

Senior Research Scientist, 2013.

Leader global forecast development, 2008-2013.

Research Scientist, 2003–2013.

Associate Research Scientist, 1999–2003.

Center for Weather Prediction and Climate Studies (CPTEC), Cachoeira Paulista, SP, Brazil.

Visiting Scientist, 1996–1999.

Max Planck Institute for Plasma Physics, Garching, Germany.

Post-Doctoral Researcher, 1992–1995.

Publications (Google Scholar 9/3/15: Total citations = 1889, H-index = 21) [* indicates Post-docs]

Postdoctoral researchers supervised

John T. Allen, Feb 2013 – present.

Chi-Ying Lee, Oct 2013 – present.

Mengqian Lu, Sep 2014 – present.

Courses taught

APMA 2101 Introduction to Applied Mathematics

APMA 3101 Linear Algebra

Grants and contracts

1. *Severe weather activity prediction*. PI, Willis Re, Award Period: 07/01/2015 - 06/31/2017. \$200,000. SEAS.
2. *Development and testing of a multi-model ensemble prediction system for sub-monthly forecasts*. co-PI. National Oceanic and Atmospheric Administration. Award Period: 05/01/2015 - 04/30/2017. \$26,982. SEAS.
3. *Assessment of CFS predictions of severe weather activity*. PI. National Oceanic and Atmospheric Administration. Award Period: 08/01/2014 - 07/31/2016. \$130K. SEAS.
4. *Subseasonal NMME Forecasts: Skill, Predictability, and Multi-model Combinations*. co-PI. National Oceanic and Atmospheric Administration. PI. Award Period: 08/01/2014 - 07/31/2016. \$80K. SEAS.
5. *Improved Probabilistic Forecast Products for the NMME Seasonal Forecast System*. co-PI. \$246K. Award Period: 8/1/14 - 7/31/16. IRI/EI.
6. *Development and analysis of environmental indices for the spatial distribution of hail occurrence and size*. PI. FM Global. Award Period: 05/22/2014 - 05/21/2015. \$79,567.00. SEAS.
7. *AXA Award research project*. Co-PI. Award Period: 10/15/13-10/14/15. co-PI. \$332,500. EI/SEAS.
8. *Predictability of Atlantic hurricane activity by the NMME coupled models*. co-PI. National Oceanic and Atmospheric Administration. Award Period: 8/1/12-7/31/16. \$220K. IRI/EI.
9. *Developing an optimum multi-model ENSO prediction*. co-PI. National Oceanic and Atmospheric Administration. Award Period: 8/1/12-7/31/15. \$275K. IRI/EI.
10. *U.S. National Multi-Model Ensemble ISI Prediction System*. PI. National Oceanic and Atmospheric Administration. Award Period: 08/01/2012 - 07/31/2015. \$174,925. IRI/EI.
11. *Towards long-range prediction of tornado activity*. PI. Columbia Research Initiatives for Science and Engineering (RISE). \$160K. 7/1/12. IRI/EI.
12. *Extended-Range Prediction with Low-Dimensional, Stochastic-Dynamic Models: A Data-driven Approach*. PI. Office of Naval Research. Award Period: 06/01/2012 - 05/31/2015. \$2,800,000. IRI/EI.
13. *Incorporating scale and predictability information in multi-model ensemble climate predictions*. PI. National Oceanic and Atmospheric Administration. Award Period: 8/1/10 - 7/31/13. \$53K.
14. *Separating forced and unforced decadal predictability in models and observations*. PI. Department of Energy. Award Period: 7/1/10 - 6/30/13. \$96K. IRI/EI.
15. *Recalibrating and Combining Ensemble Predictions*. Co-PI. National Oceanic and Atmospheric Administration. Award Period: 08/01/09 - 07/31/11. \$285K. IRI/EI.
16. *Linking seasonal forecasts into Riskview to enhance food security contingency planning*. co-PI. UN World Food Program. Award Period: 11/23/09 - 8/31/10. \$14K. IRI/EI.
17. *Collaborative Research: Hydrology of Central and Southwest Asia: Connections between regional atmospheric circulation and large-scale climate variability*. co-PI. NSF. Award Period: 2003-2006. \$56K.

Presentations

1. *Hazardous convective weather risk: Big and small data problems*, 5th International Workshop on Climate Informatics, NCAR, Boulder, CO. September 24-25, 2015. Invited.
2. *Modeling Hazardous Convective Weather Risk*, RiskLab, ETH, Zurich, Switzerland. August 25, 2015. Invited.
3. *Modeling Hazardous Convective Weather Risk*, Extreme Weather and Climate: Hazards, Impacts, Actions, Columbia University, New York, NY. May 6, 2015. Invited.
4. *Assessment of CFS Predictions of U.S. Severe Weather Activity*, Climate and Severe Weather Workshop, NCWCP Conference Center, College Park, MD, March 11-12, 2015. Invited.

5. *Seasonal Prediction – Statistical Aspects I, II*, The First Seasonal Climatic Prediction Workshop, Center of Excellence for Climate Change Research, King Abdulaziz University, Jeddah, Kingdom of Saudi Arabia. Dec 29, 2014 - Jan 1, 2015.
6. *Toward seamless prediction of severe weather activity*, 26th Conference on Climate Variability and Change, 94th American Meteorological Society Annual Meeting, Atlanta, GA. February 02 - 06, 2014.
7. *Toward seamless prediction of severe weather activity*, Climate Prediction Center NOAA / National Centers for Environmental Prediction. College Park, MD. Jul 23, 2014. Invited.
8. *Toward seamless prediction of severe weather activity*, World Weather Open Science Conference 2014. Montréal, Canada. August 16-21, 2014.
9. *CFSv2 forecasts of a U.S. monthly tornado index*, NOAA's 37th Climate Diagnostics and Prediction Workshop, Fort Collins, Colorado, October 22-25, 2012.
10. *Association of Tornado Occurrence with Environmental Parameters*, School of Marine and Atmospheric Sciences, Stony Brook University, September 12, 2012. Invited.
11. *Association of Tornado Occurrence with Environmental Parameters*, NASA Goddard Institute for Space Studies, New York, NY. May 4, 2012. Invited.
12. *Association of Tornado Occurrence with Environmental Parameters*, Center for Ocean-Land-Atmosphere Studies, Fairfax, Virginia. May 3, 2012. Invited.
13. *Associating U.S. monthly tornado activity with environmental parameters*, 25th Conference on Climate Variability and Change, 93rd American Meteorological Society Annual Meeting, Austin, TX. Jan 7, 2013.
14. *Regression-based methods for finding coupled patterns*, 19th Conference on Probability and Statistics, 88th American Meteorological Society Annual Meeting, 20-24 January 2008.
15. *Potentially predictable components of African summer rainfall in SST-forced GCM simulations*, 18th Conference on Climate Variability and Change, 86th American Meteorological Society Annual Meeting, Atlanta, GA. January 27 - February 03, 2006.
16. *Potential predictability, ensemble forecasts and tercile probabilities*, Center for Ocean-Land-Atmosphere Studies, Fairfax, Virginia. June 30, 2005. Invited.
17. *The use of large-scale climate information to predict Central Asia river flows at one and two season leads*, 16th Conference on Climate Variability and Change 85th American Meteorological Society Annual Meeting. 11 January 2005.
18. *Predictability of Indian monsoon rainfall variability*, Symposium on Forecasting the Weather and Climate of the Atmosphere and Ocean, 84th American Meteorological Society Annual Meeting, 15 January 2004.
19. *Statistical correction of Central Southwest Asian winter precipitation simulations*, 14th Symposium on Global Change and Climate Variations, 83rd American Meteorological Society Annual Meeting, Feb 12, 2003.
20. *Predictability of linear stochastic dynamics*, Symposium on Observations, Data Assimilation, and Probabilistic Prediction, 82nd American Meteorological Society Annual Meeting, Jan 16, 2002.

Workshops organized

The First International Workshop on Climate Informatics, August 26, 2011

The New York Academy of Sciences, [Information Web site](#)

Workshop on Severe Convection and Climate, March 14-15, 2013

Columbia University, Palisades, NY, [\[Agenda\]](#) [\[Description\]](#)

2nd Workshop on Severe Convection and Climate, March 9-10, 2016

Columbia University, New York, NY

Professional Service

Journal reviewer: Journal of Climate, Monthly Weather Review, Geophysical Research Letters, Climate Dynamics, Science, Journal of Applied Meteorology and Climatology, IEEE Transactions on Automatic Control, Journal of Geophysical Research, Tellus, Weather and Forecasting, Journal of Hydrology, Ocean Modelling, Quarterly Journal of the Royal Meteorological Society, Climatic Change, Physica D: Nonlinear Phenomena, Journal of Atmospheric and Oceanic Technology, Journal of the Atmospheric Sciences, International Journal of Climatology, Theoretical and Applied Climatology.

Review Panels: NOAA Modeling, Analysis, Predictions, and Projections, NOAA CLIVAR Pacific, Research Opportunities and Approaches to Data Science (ROADS) Review Committee.

NOAA Climate Prediction Task Force 2012-2014.

Invited Lecturer. Targeted Training Activity: Statistical Methods in Seasonal Prediction, Abdus Salam International Centre for Theoretical Physics, Trieste, Italy. 2 August 2010 - 13 August 2010.

APAM Service.

1. Applied Mathematics Program Committee.
2. Class of 2016 AM Undergraduate Advisor (A-L).
3. Research Conference coordinator. Fall 2015.
4. Oral exam committee: Mark England. June 2015.
5. Ph.D. thesis committee: Usama Anber. June 2015.
6. Ph.D. thesis committee (chair): William Martin. June 2014.
